

## COLFAX FLUID HANDLING – Diesel Engine Applications

- Colfax Fluid Handling is a world leader in the design, development, and manufacture of pumps and pumping technologies.

3-Screw	Two Screw
Crescent Internal Gear	Gerotor
External Gear	Centrifugal
Progressive Cavity	Peristaltic
Shuttle Block	Propeller
Magnetic Coupled Drives	Integrated Aeration Dampening Technology
Integrate Flow Controls	Integrated motors & controls

- Colfax uses a variety of specialized patented technologies to bring special benefits that serve the Diesel Engine Industry:

 <p>Fuel, Lubrication, Heat Recovery and Urea Injection</p>	 <p>Water Typically- Centrifugal</p>
	 <p>Servo Typically- Crescent Internal Gear</p>
<p>Types- Crescent Internal Gear</p> <ul style="list-style-type: none"> <li>• 3-Screw</li> <li>• 2-Screw</li> <li>• Gerotor</li> <li>• External Gear</li> <li>• Smart pump/motor/controller systems</li> </ul>	

- The company is built around strong well known brands integrated into a single global Fluid Handling platform.
- Colfax incorporates a strong lean manufacturing approach to all facets of the business, and centered on high standards of quality (ISO:TS16949) and commitment to collaboratively innovate with our customers.
